Information on Early Years Education Funding

All children qualify for grant funding totalling 570 hours per eligible birthday year the term after their 3rd birthday, eg. if your child was born on 15th November 2015, they will receive grant funding from the start of the spring term commencing at the beginning of January 2019.

(The following information also applies to those children receiving 2 year old funding.)

570 hours per birthday year equates to an average of 15 hours per week for the 38 weeks that pre-school is open.

Grant funding may not be applied for on any bank holidays or inset days. We apply for grant funding for the sessions you have chosen for your child, not exceeding 15 hours per week, and less if we are not open for the full 5 days.

Any hours in excess will be invoiced for at our hourly fees rate.

In some rare instances, a child may attend pre-school for more than 570 hours in a birthday year and any additional hours in the third term would be invoiced for at our hourly fees rate. We will notify you at the beginning of the term if your child is nearing the 570 hours so that if you wish you can reduce the number of hours your child attends rather than pay for the remaining balance. Please speak to a member of staff and we will arrange this for you.

If you have any queries regarding your child's funding or invoice, please contact our Finance Officer on 01252 861565 or finance@yateleycpreschool.co.uk. For more information on government funding please go to:
